PROFILE SUMMARY

Aspiring full-stack developer familiar with React, Django, Python, and JavaScript. Interested in creating clean, user-friendly designs and improving backend functionality while continuously enhancing my skill.

PROJECTS

Priyanshi Coalfield - ERP System (Jun 2025 - Nov 2025)

Role : Full Stack Developer

- Work both frontend and backend of a web application using React.js, Material-UI, and Django, developing forms, tables, and APIs for seamless data flow. Also perform filtration from backend, based on searches and selections. <https://priyanshi.coalfeed.in/>

KP & Grandsons - ERP System (Jun 2025 - July 2025)

Role : Full Stack Developer

- Work both frontend and backend of a web application using React.js, Material-UI, and Django, developing forms, tables, and APIs for seamless data flow. <https://erp.kpgrandsons.in/>

SR Enterprises - ERP System (May 2025 - Jun 2025)

Role : Full Stack Developer

- Contributed to the frontend development of a project dashboard with React.js and Material-UI, building responsive forms, data-driven tables, and print functionality to optimize user workflow. <https://sr.yashvitech.com/>

DDC Consultancy (Apr 2025 - Aug 2025)

Role : Full Stack Developer

- Primarily focused on backend integration, I contributed to the project dashboard's frontend, developing scheduler filters and logic for data-driven tables. Utilized React.js and Chakra-UI to implement responsive forms and essential print functionality, streamlining user workflows. <https://ddcconsultancy.in/>

PROFESSIONAL EXPERIENCE

Intern - Full stack Development

YASHVITECH IT SOLUTION PVT LTD

Duration: 6 Months

- Delivered value to live projects by developing responsive, accessible front-end components using React, JavaScript, HTML, CSS, Tailwind CSS, and MUI. Improved skills via personal projects.
